●「デンジャープラネット」とV.P について
桐生の操る"九郎"、影嶽の操る"ベンケイ"などは、対戦ゲーム『デンジャープラネット』のプログラム上で動くゲームキャラクター。桐生たちはそのキャラクターのデータをメモリーディスクに入れて持ち歩き『デンジャープラネット』の筐体がある全嶽のアミューズメントスポットで対戦する。キミが『ストII』などの対戦ゲームで、使用するキャラクターをひとりに決めて遊んでいるプレーヤーなら、そのノリが桐一く理解できるハズだよね。

Where did that come from ?!
Hey! Kilie ! It's enemies !
Our electrics club is currently having vast interests in intranet arcade PVP online games
He is so going to scold me...
"Danger Planet" made by company Dagger is the one we are paying attention to !
According to info we have here ...
Kilie ! You seem to be an A rank pilot!
ドドド

Heh, this is why it's no fun fighting ready-made (Pre-made) VPs !
Don't kid yourself
Yours may look like "Berejev" by Degger, but it's not.
Don't judge them by appearances!
Our next opponent might be a fully modded one !
Yeah, one that blew away your arm.
There it comes again !
This disks contains a VP (Virtual Puppet) which every member in this club has spent their time in modding

Would surely be the way for us to receive great offers from gaming companies !
This game is gaining some serious popularity So, by developing this awesome VF that
Surpasses other VF and ultimately conquers the game
And for that, we need a good pilot like yourself !

How could you do this to me ?!
Arrr ... I am ashamed.
I am sorry to inform you that our pitiful performance was displayed on the screen.

I should have never asked an outsider to do this !
What have you done to our hard work ..
Sorry ~
Shut up, you made a copy

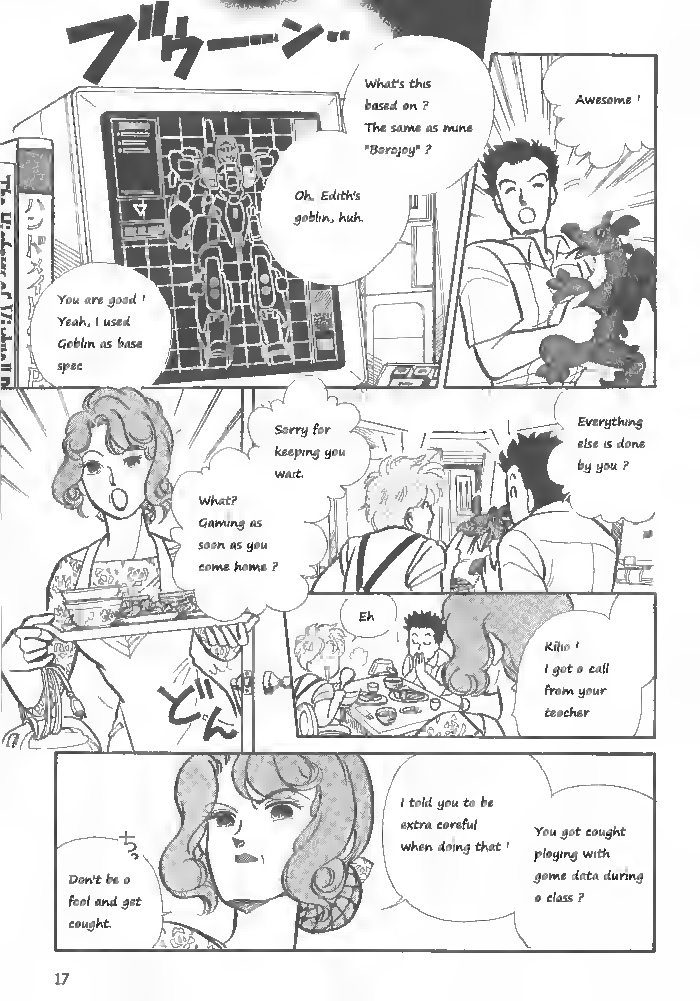
The big V.P won the match.
He was playing from a game center next to ours.
This battle may have been restricted within this region, but someone important may have been watching the pitiful performance !
I swear ! will restore my honor !
You guys

I am sorry to say this but the VP was barely good enough even compared to stock ones.
Trying to capture the world by conquering Danger Planet ? No way He needs at least 10 more years
When he decided to touch a network game, he was already overdoing
I think so, too ...
Ah Ah
If we did well, our video game club could have been able to approved offically by the school.
The chief of the electrics club has some powers at the school council.
Hmph
Forget it.
I had no idea that I'd confront such a VP today
You know the VP "Sanke" ..
I have not met him personally
But he's been ruling in this region.
He's pretty famous.
So, I had to give up
When I was trying to fight him with just a handgun ...
It felt like I was throwing eggs at a rock.

Sorry I am a bit late.
Ah, Daisuke. Welcome.
Wanna come to see ?
I've been working on my VP
By the way, what have you been doing lately?
You haven't joined much battles lately
I am home.
We are going upstairs.
It's late, so let's have dinner together
Okay?
So, what frame did you choose for your new V.F ?
Dagger's High Draft 3.
Give me a sec. I will show you.



ブゥーン…
What's this based on ? The same as mine "Barajoy" ?
Oh. Edith's goblin, huh.
Awesome !
You are good ! Yeah, I used Goblin as base spec
Sorry for keeping you wait.
What? Gaming as soon as you come home ?

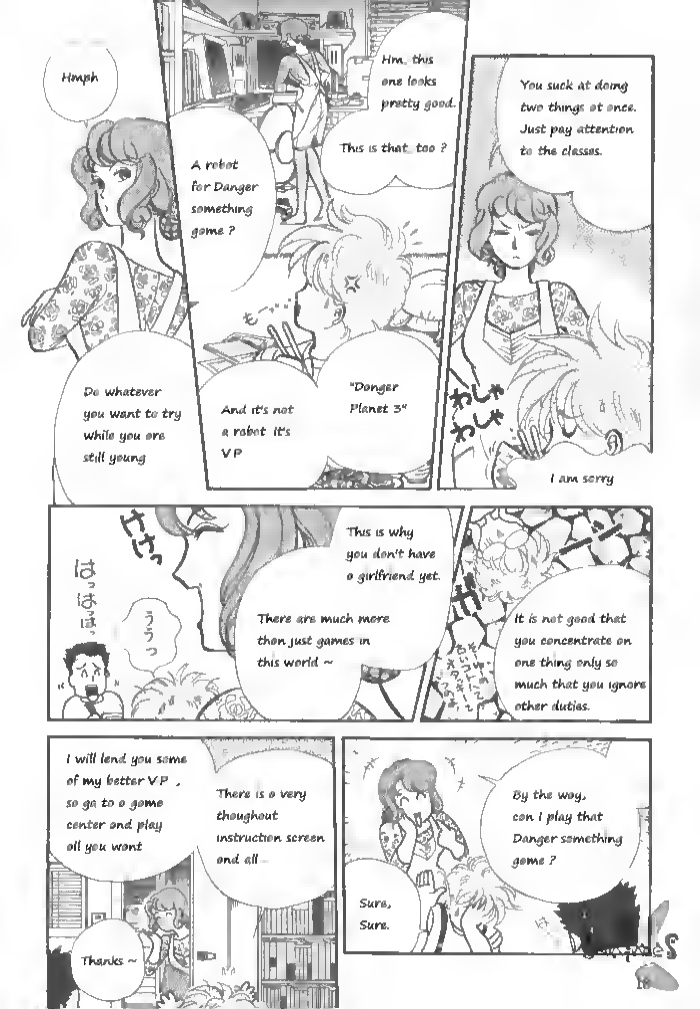
Everything else is done by you ?
Eh
Kiito ! I got a call from your teacher
I told you to be extra careful when doing that !
You got caught playing with game data during a class ?
Don't be a fool and get caught.



Hmph
Hm, this one looks pretty good.
This is that, too ?
A robot for Danger something game ?
You suck at doing two things at once. Just pay attention to the classes.

I will lend you some of my better VP , so go to a game center and play all you want
There is a very thoughout instruction screen and all ~
Thanks ~
By the way, can I play that Danger something game ?
Sure, Sure.

I want to meet "Tako".
Ah, that "Conny Palace" center ?
Daisuke, as soon as the exams are over I am thinking of visiting the other gaming center
She's really a nice mom.
Stop
You use V.P.'s abilities rather than your own skills.
That's why the chief let you pilot his.
I don't wanna see him, but
I will go with you
His V.P. didn't seem to be something that was built around by simply reinforcing existing data
Besides, I want to know how he could have made his V.P. that big and still made it within the data limit.
As a programmer I am very interested in him.

It was a surreal action game. Its background was wars between various planets.
But nowadays many people simply enjoy the battles.

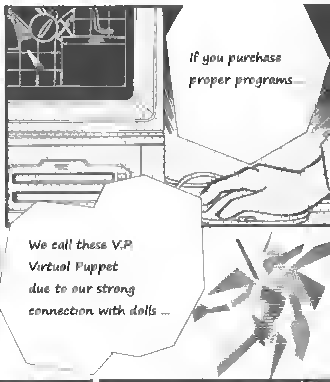
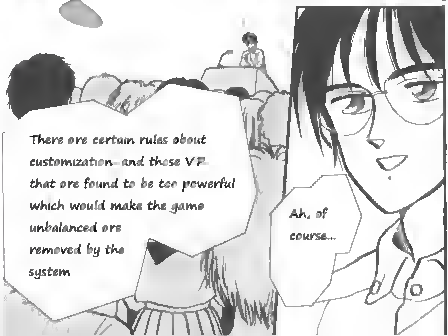
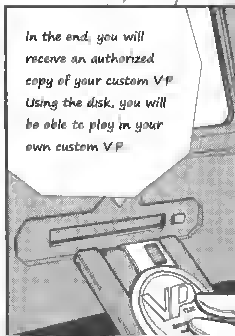
As long as you have the skills, you are allowed to modify V.P. or even build one from ground up.
A custom V.P. will need to be read and verified by a Conny center



If you purchase proper programs...
We call these V.P. Virtual Puppet due to our strong connection with dolls...



There are certain rules about customization and these V.P. that are found to be too powerful which would make the game unbalanced are removed by the system.
Ah, of course...



In the end, you will receive an authorized copy of your custom V.P. Using the disk, you will be able to play in your own custom V.P.
